

# SAMVY® Cough Syrup

## Ivy Leaf Extract

For all ages and all types of cough

### DESCRIPTION:

SAMVY® cough syrup contains ivy leaf extract which possesses mucolytic, spasmolytic, anti-inflammatory properties and bronchodilator effects. It is used to mitigate coughs, mucus production and associated bronchial conditions

SAMVY® cough syrup is an effective solution which liquify the mucus, relaxes convulsive cough and calms coughing. SAMVY® combats the typical complaints of bronchitis: increased formation of viscous mucus, shortness of breath and irritation of the throat. Troublesome and painful coughing is calmed, but not blocked, which is important for being able to cough up the mucus and thereby allow for trouble-free breathing

### COMPOSITION:

#### SAMVY® Cough Syrup

Each 5ml contains:

Ivy Leaf Extract (*Hedera helix*) .....35mg

### INDICATIONS:

- For symptomatic treatment of chronic inflammatory bronchial conditions
- Acute catarrhs (inflammation) of the respiratory tract accompanied with coughing

### DOSAGE & ADMINISTRATION:

Children below 6 years	2.5ml, 2 times daily
Children 6-12 years	5ml, 2 times daily
Children above 12 years and adults	5ml, 3 times daily

For children under the age of one year, please consult your Healthcare Professional

### DURATION OF TREATMENT:

Duration of treatment depends on the nature and severity of the condition. However, even in case of mild inflammation of the respiratory tract, treatment should last at least for one week. Further, it can be maintained for 2-3 days after symptoms have subsided to ensure the complete recovery. In the event of persistent complaints such as fever, shortness of breath, hemoptysis, consult a Healthcare Professional

### SIDE EFFECTS:

- Allergic reactions, such as skin rash, red itchy skin and shortness of breath
- Gastrointestinal disorders such as nausea, vomiting and diarrhoea have been reported and there may be a laxative effect due to the sorbitol content. If any of the side effects gets severe, or if you notice any side effects not listed in this leaflet, please tell your Healthcare Professional

Important information on certain other ingredients of SAMVY® Cough Syrup:

Contains sorbitol

When used as directed, each 5ml of SAMVY® Cough Syrup contains up to 3.8g sorbitol. Please take SAMVY® Cough Syrup after consultation with a Healthcare Professional if you have a known intolerance to certain sugar. Patients with the rare hereditary fructose intolerance should not take SAMVY® Cough Syrup

### CONTRAINDICATIONS:

Hypersensitivity to any of the ingredient(s)

### WARNINGS AND PRECAUTIONS:

- Pregnant and nursing women should consult a Healthcare Professional prior to taking ivy leaf extract syrup
- In case a dose is missed, do not double the dose, continue to take medication as per next schedule

### DRUG INTERACTIONS:

Please tell your Healthcare Professional if you are taking or have recently used any medicines, including medicines obtained without prescription. No interaction is known so far and no studies have been conducted

### STABILITY:
